LONDON, July 27.—The Russian retirement in Eastern Galicia continues. There has been a noticeable slackening in the Austro-German advance north of the Dniester, where the Russians are now offering more spirited resistance, but south of the river to the Carpathians the Teutonic forces are moving forward almost unimpeded. Around Tarnopol, the Austro-Germans have met with stubborn resistance from the Russians, but Prince Leopold's soldiers were unable to enlarge recent gains on the eastern bank of the Sereth. Between Trembowla and Skoromoze, south of Tarnopol, the Russians were forced to yield the crossings of the Sereth and Gniza rivers on a front of about eight miles, according to Berlin. South-east of Tarnopol Petrograd reports the Austro-German attacks were repulsed.

The Russians have retired to new positions southeast of Trembowla, but whether they also surrendered the crossings of the Sereth, Petrograd does not say. Between Czortkov and the Dniester, Russian cavalry has repelled Teutonic assaults and driven the attackers northwestward toward Monasterzyska.

Near Csernowitz
South of the Dniester, into the foothills of the Carpathians the Russians are retreating. The Austro-Germans are advancing northward, about fifty miles northwest of Csernowitz, capital of Bukowina, has been occupied by Bavarian and Austro-Hungarian troops. Counter Battery Fire
In the morning the German artillery bombarded the regions of Permye, Dikmude, Odorescapelle and Neucapelle. In the afternoon the customary activity of the artillery was resumed. We carried out a counter-battery fire and a fire of destruction against an enemy observation post. A Belgian detachment has captured the crew of a German submarine stranded on the shore.

Sharp Air Fighting
LONDON, July 27.—The official statement from British headquarters in France issued today reads: "The enemy's activity was more active than usual during the day in the neighborhood of Arras. The flying was possible yesterday until the evening, when sharp fighting took place for about two hours. One hostile machine was brought down and another was driven down out of control. Two of our machines are missing."

Surprise Attack Falls
PARIS, July 27.—The war office communication issued this evening says: "Intermittent artillery fighting took place today, on the greater portion of the front. The enemy's activity was particularly violent in the sector of Allied Hurlbise, in Champagne, in the region of Mont Haut and on both sides of the Meuse. Palzer, Prize Fighter Shot; Family Brawl
LONDON, July 27.—Dr. Michael Clark, M.P., of Red Deer, was the principal speaker tonight at a win-the-war mass meeting held in the Connaught hotel. Sir John Gibson presided and expressed himself strongly in favor of compulsory service and a coalition government. Dr. Clark expressed admiration for Sir Wilfrid Laurier and much regret that he had departed from the stand he took last year on the extension of the life of parliament. The speaker claimed that he had not repudiated his leader, but that Sir Wilfrid had repudiated his party. The whole man and money power of Canada must be mobilized independent of party politics for the winning of the war.

SACRIFICES OF BRITAIN FOR NEEDS OF WAR

Lord Robert Cecil Comments Upon Effect Of Decreased Tonnage.

(By Morning Bulletin Leased Wire)
LONDON, July 27.—Lord Robert Cecil, the minister of blockade, discussed the shipping situation today with the Associated Press, touching particularly on the sacrifices incurred by Great Britain owing to the obligation imposed upon shipping as a result of the war.

"Ocean going vessels of British registry before the war were between 17,000,000 and 18,000,000 tons," he said, by way of introduction. "At present the total, inclusive of prizes and new ships, is slightly over 15,000,000 tons."

"The country generally has had to suffer great and increasing sacrifices through the shortage of tonnage caused by war requirements and the marine losses," continued Lord Cecil. "I wish particularly to point out how we have suffered ruthlessly the needs of industry and commerce to war requirements."

Lord Cecil said that about 6,500,000 tons of British shipping have now been allocated entirely to the needs of the navy and army, the allies and the dominions, while a further 10,000,000 tons are being used similarly on the outward and homeward trade. The rest was lost to the export trade.

Auxiliary Cruisers
"The services rendered by these ships are varied," said Lord Cecil. "Some of the speediest and most efficient have been converted into auxiliary cruisers, and others into hospital ships, many of them are engaged in taking coal and oil to the navy, and others constantly are carrying troops and other supplies to the army and navy; others are engaged in mine sweeping and patrol work, and others are assigned to our allies to supply urgent needs for munitions and other imports, and others are carrying wheat and other foodstuffs for our allies."

"From the beginning of the war British ships have been requisitioned on a large scale by the government and run in national instead of private interest. The rates paid to ship owners have been much lower than could be earned by free ships, and British owners therefore were unable to earn the same as foreign competitors. Now the situation has reached a stage at which it has been necessary to take complete control of all British shipping, first to the employment of every vessel in the manner most consistent to the national interest, and second to divert from private pockets to the public treasury the high freights prevalent."

Result.
"The result may be summarized as follows:—First—The British government has requisitioned about 97 per cent. of the ocean going tonnage on the British register. Second—The requisitioned ships have been requisitioned and are being run for government account. Third—Every ocean going vessel of British registry is now directed by the government to the national interest, and the rates paid to ship owners are fixed by the government. Fourth—The British shipping industry has been abandoned to neutrals who gladly seek employment for their vessels in the transport of war risks. Fifth—Civilian traffic around the shores of Great Britain is now being subjected to a searching review for the purpose of securing the safe passage of ships which can be utilized for ocean going work."

One effect of the requisitioning is seen in the fact that the net value of neutral ships is double that of British ships. It also must be borne in mind that the cost of running a merchant vessel has to run extraordinary risks in bringing necessary commodities hither. The areas around the British coast have been closed to enemy ships for special attack, but notwithstanding the risk, the officers and men have never made any difficulties about sailing ships through the most dangerous routes."

STEAMER SUNK IN COLLISION; CREW SAVED
HALIFAX, N.S., July 27.—The Dominion Iron and Steel company's steamer Heathcote was sunk in the Gulf of St. Lawrence on Thursday as a result of a collision with a Dutch steamer, which escaped with slight damage and succeeded in rescuing the entire crew of the Heathcote. The Heathcote was of 2,345 tons gross.

(By Morning Bulletin Leased Wire)
NEW WATERFORD, July 28.—All the bodies of miners who lost their lives in the Cape Breton colliery disaster in the Dominion Coal company's colliery here, have been recovered. At noon yesterday the last two bodies were brought up and the coal company officials announced the final count of loss of life is 65.

The bodies recovered yesterday were Richard Butts and James Gillies, both native Cape Bretoners. It was reported here this afternoon that Number 12 colliery would resume work on Monday next.

HEARST CALLS FOR HELP SAVE ONT. HARVEST

Appeals To Business Men—Crop Must Not Be Allowed To Rot.

(By Morning Bulletin Leased Wire)
TORONTO, July 27.—Hearst called for direct public attention to the serious situation which exists at present in regard to the harvesting of the plentiful crop which is ripening in Ontario fields, said Sir William Hearst today, in an appeal to business men, manufacturers and all public spirited citizens to "interest themselves in the campaign for greater food production and render a service of the highest patriotic importance."

He stated that this year, as a result of the late spring and the subsequent frequent rains, having an harvest are coming on almost together, and several thousand men are required to do the work. The harvest is a period of intense activity, and the efforts of the farmers, crowned with success, the crop must not be allowed to rot on the ground."

In January 3,000 prisoners of war were crowded into a camp, population suffers much from hunger and often trains of prisoners are led by the hungry people."

SAY FINDING IS NOT BORNE OUT BY EVIDENCE

Conclusion Of Investigation Of Rogers' Case By The Teller-MacLeod Commission.

(By Morning Bulletin Leased Wire)
OTTAWA, July 27.—When the house rose for the dinner hour at 6 o'clock this evening, Hon. C. J. Doherty, minister of justice, tabled the report of the Teller-MacLeod royal commission appointed some time ago at the request of Hon. Robert Rogers to review the evidence taken by Mr. Justice Galt, of Winnipeg, in connection with the inquiry into the construction of the Manitoba Agricultural College. The commissioners' findings are as follows:

"Your commissioners find: (A) That the increase of the Carter company's tender for power house by \$2,700 was recommended, by Mr. Rogers, before he (the Hon. Robert Rogers) telephoned to Mr. Carter. (B) That there was no connection whatever between such increase and the contribution of \$7,500 made by the Carter company to the election fund."

"(C) That during the time the Hon. Robert Rogers was minister of public works for Manitoba, all the contracts that were let for the agricultural buildings were properly let. (D) That the contracts for the agricultural buildings were properly let. (E) That the payments during the time the Hon. Robert Rogers was minister of public works for Manitoba, all the contracts that were let for the agricultural buildings were properly let."

"(F) That the payments during the time the Hon. Robert Rogers was minister of public works for Manitoba, all the contracts that were let for the agricultural buildings were properly let. (G) That the payments during the time the Hon. Robert Rogers was minister of public works for Manitoba, all the contracts that were let for the agricultural buildings were properly let."

"(H) That the payments during the time the Hon. Robert Rogers was minister of public works for Manitoba, all the contracts that were let for the agricultural buildings were properly let. (I) That the payments during the time the Hon. Robert Rogers was minister of public works for Manitoba, all the contracts that were let for the agricultural buildings were properly let."

"(J) That the payments during the time the Hon. Robert Rogers was minister of public works for Manitoba, all the contracts that were let for the agricultural buildings were properly let. (K) That the payments during the time the Hon. Robert Rogers was minister of public works for Manitoba, all the contracts that were let for the agricultural buildings were properly let."

AGREEMENT FOR AN EXCHANGE OF WAR PRISONERS

Many British And German Captives To Be Interned In Neutral Countries.

(By Morning Bulletin Leased Wire)
LONDON, July 27.—(Via Reuters' Ottawa Agency) In the house of commons today, J. F. Pope announced the terms of the Anglo-German agreement regarding prisoners of war which has been ratified by the two governments. The agreement provides that the qualifications on medical grounds, both for repatriation and internment in a neutral country of combatant prisoners shall be more liberal. That the more severely wounded and seriously ill in Switzerland shall be sent back to their own countries. That there shall be selected for internment in Holland, total for both countries, 7,500 sick or wounded combatant prisoners of all ranks. That all officers and non-commissioned officers who have been in captivity for 18 months or more, shall be interned in a neutral country. The Dutch government will provide places for 6,500 of this country's men.

STRIKE IN TAMPOCO OIL FIELDS OVER
(By Morning Bulletin Leased Wire)
TAMPOCO, Mexico, July 27.—The strike of all the workmen in the Tampoco oil fields which began three days ago ended today when General Alfred Ricourt, the governor of the province, ordered the strikers to return to work at once. The strikers, who had tied up all business in oil production here, complied with the order.

THREE BURNED TO DEATH WHEN FIRE DESTROYS HOME

Former G. T. Employee, Wife And Grandson—Lived Near Woodstock, Ont.

(By Morning Bulletin Leased Wire)
WOODSTOCK, Ont., July 27.—Walter Malcolm, an old resident of Patchley and former Grand Trunk employee, his wife, and their grandson were burned to death in a fire which destroyed their house soon after midnight. Their bodies were found this morning in the cellar. The cause of the fire is unknown and it had gained such headway when the neighbors arrived that rescue was impossible.

INTENSE HEAT WITH NO RAIN IS THE REPORT

Hot Wave General Over Prairie Provinces—At Regina 105 In Shade.

(By Morning Bulletin Leased Wire)
WINNIPEG, July 27.—The heat wave in the prairie provinces reached its highest today, with a record of 105 degrees in the shade at Regina. At Regina the temperature reached 105 degrees in the shade, Moore Jaw and Swift Current experienced 100 degrees. At other points an average temperature of ninety degrees is the official record. The prospects are that the heat wave will continue for the next twenty-four hours.

REGINA, Sask., July 27.—Regina today experienced the warmest day in its history, the thermometer registering 105 degrees in the shade. A hot wind from the south, merely accentuated the heat. Late in the afternoon the wind changed to the north and it became bearable. Mayor Cowan, one of the old timers, says he remembers but one time when it was as hot, and that was twenty odd years ago.

ROGERS AGAIN TAKES SEAT IN PARLIAMENT
Following Tabling Of Commissioners' Report On Findings Of Mr. Justice Galt.

(By Morning Bulletin Leased Wire)
OTTAWA, July 27.—The house of commons did a good day's work on the bill to revise the Insurance act and the estimates of the department of public works. The report of the Teller-MacLeod royal commission investigating Hon. Robert Rogers in respect of the findings of Mr. Justice Galt, of Winnipeg, relative to the Manitoba Agricultural College, was tabled at six o'clock by Hon. C. J. Doherty, minister of justice. At eight o'clock when the house resumed with the discussion of the estimates of the public works, Mr. Rogers resumed his post as minister of public works and piloted the votes through the house. The discussion was largely for wharves and other public works in the Maritime provinces.

The discussion on the insurance bill was almost entirely of a technical character. Sir Thomas White, minister of finance, announced that the department of finance had accepted the proposal made by Hon. Rodolphe Lemieux to arrange for the payment of excess premiums on policies held by men sent to the front. Mr. Rogers said that the plan was impracticable because under the Military Service act some of the men enrolled would be insured for large amounts while others would be insured for small amounts. It was therefore impossible to secure uniformity of treatment for the men. He pointed out that the Government of the United States had insurance for soldiers that it is in lieu of pensions.

MAKES MINISTRY RECONSTRUCTION
(By Morning Bulletin Leased Wire)
OTTAWA, July 27.—(Via Reuters' Ottawa Agency) By a vote of 92 to 30, the house of commons today gave second reading to the bill establishing a ministry of reconstruction to coordinate the activities of the various committees and departments dealing with problems of reconstruction and to frame schemes for the restoration of normal conditions after the war. The functions of the ministry will be mainly advisory.

RETAIL BUSINESS UP TO NORMAL IS REPORT OF DUN'S
Country Merchants, However, Showing Disposition To Defer Purchases.

NEW YORK, July 27.—Dispatches to Dun's Review from branch offices of R. G. Dun & Co., a leading credit agency of the Dominion of Canada state that mid-summer quiet now prevails in numerous departments, but that retail distribution of commodities is well up to normal and conditions in winter goods are still very satisfactory in volume. At the same time less favorable advices regarding the progress of the crops in some districts are resulting in the development of more conservatism among country merchants. They are displaying a greater disposition to defer commitments until more definite information as to actual yields can be obtained. There has been no let-up in manufacturing activity, however, where forced by weather and labor conditions, and there is a steady call for all classes of commodities at practically all the principal industrial centres.

Gross earnings of all Canadian railroads so far reporting for three weeks in July show an increase of 1.9 per cent. as compared with the corresponding period a year ago. Commercial failures in the Dominion of Canada this week numbered 17, as against 18 last week and 28 the same week last year.

STRIKERS WORKING AS HARVEST HELP
Manitoba Farmers Are Profiting By Labor Troubles In Winnipeg.

WINNIPEG, July 27.—It was stated at Labor Temple last night that farmers were taking advantage of the laborers' strike to secure harvest help and many of the men hitherto employed at the building trade have already left the city for grain fields. Several farmers visited the laborers' headquarters yesterday and in this way secured efficient help, the wages paid being about \$50 per month and board.

BELIEVES THAT LORD KITCHENER IS ALIVE!
LONDON, July 27.—The statement of Mrs. Parker, sister of Lord Kitchener, that she believes her brother to be alive and did not go down with the cruiser Hampshire, has revived a rumor which has occurred in England during the year past. Asked by an interviewer today on what grounds she based her belief, Mrs. Parker replied: "I cannot tell you on what grounds I believe it. In fact, I do not want to go into any details whatever."

The original rumor was that a letter had been received from a British prisoner in Germany saying that Lord Kitchener was a prisoner there. The letter was never traced and the rumor was considered a canard.

ONE-MAN CARS BEING USED ON SOME LINES

Calgary Saves Money, and Ed-
monton Expects to By New
Method

Superintendent Moir, in answer to a request from the utilities committee as to the progress of one-man cars on the street railway, said that at present only the stub lines were running as one-man routes and the scheme was operating satisfactorily. There was one car equipped to be used as a one-man car on the main Highland route, but it was now being operated by two men. The complete change would not be made until there were sufficient cars converted to provide for the whole run, as they could not operate one-man cars along with two-men cars on the same route run without disordering the time.

In connection with the introduction of the system at Edmonton, it is interesting to note that Calgary claims to have saved \$3,294 for the first 15 days of July by the extension of the one-man system on the Calgary street railway.

BURNT-OUT MOTOR CAUSES FIRE ALARM

Operated Automatic Pump At The
Wadhurst Park Pumping
Station.

A telephone call was received at the Civic Block on Friday afternoon from Mrs. Clyde MacDonald, who lives adjacent to the Wadhurst Park pumping station which operates in the Great Ravine, was on fire. Supt. Evans and Supt. Dan Alton hurried to the place, and found that a motor operating the automatic pump had burnt out and caused the smoke which had led to the fire alarm.

The cost is about \$100, and repairs are being carried out by the Electric Light department.

It is thought that something must have choked the pump and caused a stoppage, which in turn caused the motor for the burning out of the motor.

SAFEGUARDING THE CITY'S MILK SUPPLY

There is an instance in the June report of the Chief Sanitary Inspector which shows the necessity of constant vigilance in guarding the city's milk supply.

The particular case is that of fore-closed living in the vicinity of the Rat Creek dump, who have been entering their cows with seepage water from the dump.

These people were rounded up and told that if the practice was not discontinued they would be brought to book in the police court.

Rat Creek dump was formerly used in the same manner as the Grieson street dump for manure and city rubbish.

POLISH CONVENTION IN EDMONTON

Photograph of delegates and guests taken at door of Sacred Heart Church. In front row: Hon. Wilfrid Gariepy, Minister of Municipal Affairs; Rev. Fr. Kulawy, parish priest of Edmonton Polish Church; Ex-Alderman J. Driscoll; Rev. Fr. Pilon, pastor of the Sacred Heart Church; J. T. J. Collisson, barrister, and Rev. Fr. Sylia and Rev. Fr. Pander from Saskatchewan.

POLES OF ALBERTA MEET IN CONVENTION IN EDMONTON TO ESTABLISH ASSOCIATION

Objects: Religious, Moral, Social, Educational—Central Organisation
With Local Branches—Meeting Held At Sacred Heart Church—
Attended By 200 Delegates—Addressed By Rev. Fr. Kulawy, Hon.
Wilfrid Gariepy, And Others.

A Polish convention was held in the basement of the Sacred Heart church, Kinslay avenue, yesterday. The object of the convention was to establish a society for social purposes for the members of the nationality resident in Alberta. Upwards of two hundred were present. Rev. Fr. Kulawy, spiritual director, presided, and the attendance also included Rev. Fr. Pilon, Sacred Heart Mission; Rev. Fr. Sylia, secretary; Rev. Fr. Pander, Melville, Saskatchewan, organizer; Hon. Wilfrid Gariepy, minister of municipal affairs; J. T. J. Collisson, and Joseph Driscoll.

Organization Necessary.
Rev. Fr. Kulawy, in opening the proceedings, pointed out the absolute necessity of establishing a Polish society in the province. It was, he said, particularly necessary under present conditions. There were about five thousand Poles in Alberta, and these were without organization of any kind. The contemplated association would be purely social in its character and constitution, and would have no political complexion or aims.

Father Kulawy referred to the great Polish patriot and soldier, Kosciuszko, who was highly appreciated by Washington, under whom he fought. Poland, he said, was a great nation. It always fought for liberty and had high ideals of nationality and freedom.

Father Kulawy said that while preserving their nationality, their language and their customs, the Canadian Poles were prepared to loyally abide by the constitution under which they lived.

Hon. Wilfrid Gariepy, that as a minister of the provincial government, he was very glad to be present at this gathering of the Polish people of Alberta. He was pleased to hear the expression of loyalty to the constitution from the reverend chairman, and he advised the different nationalities in the province to develop their ideals, customs and language, so long as they complied with the requirements of the constitution under which they lived. He urged them to remain united in their ideas and to develop a steady love for Canadian institutions and the flag of the country.

The speech of the honorable gentleman was enthusiastically received and was frequently punctuated by the applause of the audience, who were very glad to have a minister of the provincial government present at their meeting.

Other Addresses.
Rev. Father Pilon addressed a few words of welcome to the gathering assembled in his parish and placed the parochial hall at their disposal free of charge. This announcement was heartily applauded.

J. T. J. Collisson next addressed the meeting and expressed surprise at learning there were no fewer than two hundred thousand Poles in Canada, twelve thousand of these being in

VETERANS INVITED TO PICNIC SOUTH COOKING LAKE

Owners Of Automobiles Requested
To Supply Cars To Take
Soldiers.

An invitation has been extended by the ladies of South Cooking Lake to fifty returned soldiers to attend a picnic at that favorite resort on Wednesday, August 1st, and a request has been made to the auto committee to furnish a sufficient number of cars to transport the veterans. With this object in view, owners of automobiles willing to give their assistance are requested to notify the secretary at 218 Alberta Block, at their earliest convenience. The rendezvous will be the cottage of Kenneth McLeod, which is about 25 miles from the military hospital, and it is hoped the required number of motorists will be forthcoming to convey all the men there. Further particulars will be gladly given on phoning 5186 any evening after 5:30 o'clock.

DE KAN GROTTA HAS ENJOYABLE OUTING

Journeyed by Motor to Country
Home of Mr. and Mrs. Robert
Smith

One of the most successful outings of the year was that of Dekan Grotto, Thursday evening, held at the farm of Robert Smith, some five miles from the city.

One hundred or more enthusiastic members gathered on 102nd street, in front of the Masonic Temple, at six o'clock Thursday evening, boarded automobiles and presented a spectacular scene as they commenced on their way, decked with official headgear.

Arriving at the farm, they were met by Mr. and Mrs. Bob Smith, and after the monarch had been presented by little Miss Smith with his emblem of authority (a mallet decorated with a lion's head), he unveiled the "De Kan," a huge water tank painted with the mystic signs of the order.

The guests then sat down to supper, and, after being regaled with a number of sports being indulged in, the happy gathering departed in autos for the city. One and all voted it a delightful outing and manifested their appreciation by rousing cheers for the host and hostess.

PRINCIPAL DYDE HEARS THAT SON WINS CAPTAINCY

Now A. O. O. Battery in France—
Enlisted From Oxford at
Start of War

Principal Dyde of Robertson College has just received word of the promotion of his son, W. F. Dyde, to a captaincy in the artillery in France. Capt. Dyde is second in command of his battery and at the time of writing was actively commanding, as his senior officer, a major, was at headquarters.

This promotion is another instance of the efficiency of an Edmonton boy. He enlisted immediately following the outbreak of the war from Oxford, where he was pursuing studies at the time. He first went into the cavalry as a trooper, but was later transferred to the artillery and has steadily been given more and more important duties. He was twice in the casualty list and has lost a portion of one hand.

Another son of Dr. Dyde is in England in a training camp preparing to go to France.

The Independent Order of Foresters.—I. O. F. Court Edmonton, and Companion Court Patrons, will hold August Lodge in the Oddfellows' Hall, over the Douglas Co.'s Book Store, Wednesday evening, August 15th, at 8 o'clock. Meanwhile the Secretary, J. A. Kinney, 10034 119th Street, Phone 82514, will be pleased to hear from members and others interested in the work of the order.

GRANDE PRAIRIE WHEAT IS BEST IN PROVINCE SAYS W. J. STARK BACK FROM TRIP TO NORTHLAND

Exhibition Manager Surprised At Development Of Country And
Fine Crops—Finds "Cow Bill" Of Great Value To Settlers—
One-Third More Acreage Than Last Year.

W. J. Stark, manager of the Edmonton Exhibition, is home from a trip through the north country as a guest on the Alberta Government's Mixed Farming Special. Among other places visited were High Prairie, Donnelly, Leduc, Peace River, Smoky River, Spirit River, and Grande Prairie. Mr. Stark had an exceptional opportunity of getting in touch with the farmers in this new country, at the various points mentioned, and did considerable missionary work on behalf of the Associations which he represented, including the Exhibition Association and the Alberta Provincial Horse Cattle, Sheep and Swine Breeders' Associations. He was very favorably impressed with the possibilities of this country, which is rapidly becoming a big buyer of pure bred livestock.

The legislation enacted at the recent session of the Legislature, known as the "Cow Bill" is proving very popular and of great value to the people living in the north country.

The McArthur Farm.
Mr. Stark went over J. D. McArthur's farm of 1,500 acres at Spirit River. Mr. McArthur has 65 acres of wheat and an equal amount of barley growing on last year's breaking; those with the Government train, who have been all over the province, stated that the barley was easily the best they had seen anywhere in the province, and the wheat the equal, if not better than anything they had seen up to that point. Mr. McArthur was also growing potatoes, turnips and corn, and in this way demonstrating to the incoming settlers what the country will do with ordinary cultivation and care. Mr. Stark was very enthusiastic about the crops in the Grand Prairie district.

Mr. Douglas, general agricultural agent of the C.P.R. Co., who had accompanied the train throughout the province since June 27th, stated that the wheat around Grand Prairie was by far the best he had seen in the province.

One-Third More in Crop.
Those competent to speak on the question said that there was fully one-third more acreage in crop in the Grand Prairie district than there was last year, and the same increase in breaking is now being made for next year.

The country generally is in need of rain. The late crops, such as oats, will suffer to some extent unless rain is experienced soon. The wheat, however, is too far advanced to be affected. The hay crop was never better in the north country.

The big demonstration train of 17 heavy coaches, drawn by two engines, under the personal supervision of the efficient superintendent of the E.D. & N.W., Mr. J. D. Murray, travelled on schedule from point to point, without mishap, up to the time Mr. Stark left it at Spirit River.

Train Well Received.
The train, which was in charge of Mr. Eddie, assistant to Alex. Galbraith, the superintendent of fairs, and a capable staff of 24 members from the Department of Agriculture and the various schools and demonstration farms of the Province of Alberta, was eagerly welcomed by hundreds of farmers and their wives, anxious for information. The settlers of this new country are a fine type, aggressive, progressive, in dead earnest, and in search of the most modern methods, and the value of this train to the country is incalculable.

Refilling of the swimming pool at Mill Creek in Rutherford Park has been carried out and is now ready again for the bathers. The water will be regularly sterilized.

The boys department of the Y. M. C. A. have submitted a set of rules to govern conduct of users of the pool, and these have been approved by the commissioners. The rules govern the times when bathers shall enter and leave the water and what should be done under certain circumstances. Diving from off the bank is forbidden.

The Y. M. C. A. will provide a swimming instructor at the pool on certain afternoons during the week.

NEED RAIN IN EASTERN AREA OF ALBERTA

Most Of The Crops, However, Be-
tween Kerrobert And Camrose
In Good Shape.

(Special To The Bulletin)
CAMROSE, July 27.—Continuing his inspection of the crops of Central Alberta, Geo. L. Edmondson, of the Lake of the Woods Milling Co., who is travelling over the country in a automobile getting a close up moving picture of crop conditions, gives an interesting and comprehensive report of crop conditions as personally observed by him during his recent motor trip from Kerrobert to Camrose.

In the eastern part of the territory traversed, rain is needed badly, as wheat is thriving in the summerfall and complaints of thirst are being investigated by government officials in the Killam district.

Some of the farmers expect to start cutting in about two weeks. One farmer was observed plowing his field on account of the pig weed.

Badly Needed Rain.
From Kerrobert, Sask., to Luseland, Sask., the crops are burning up badly and need rain in the worst way.

From Luseland west, a slight improvement begins to take place. At Salvador, and from Salvador west to Primate, the crops are in fair condition and if given rain at this date will run around 15 to 20 bushels to the acre.

At Primate, the fields are looking good, and the grain filling nicely. Some of the farmers expect to start cutting here in about two weeks.

In West of Primate to Hardisty, the wheat is in fair condition on the average; there is an occasional poor field in some strips of sandy land near Assiniboia, Metiskow and Coar, and these crops from Luseland west to Hardisty need rain as soon as they can get it to help them.

In the Longbeach-Sedgewick area some fields of summer fallow are in bad shape through pig weed. On farmer he came across was plowing in 25 acres on this account, and apparently some others will have to plough in portions of their crop on this account.

Pig weed always exists in the summer fallow, but thrives in a dry season as at present, as it will persist in sending down its roots to reach its moisture, thus the grain sometimes with its extra large roots.

Thrip Appears.
Thrip has made its appearance for the first time in this province, it is thought, in the Killam district, and number of complaints have been laid by the farmers who report that it was it is that is getting into their crops. The thrip effects the wheat something after the same way as which Hessian fly attacks.

It is interesting to know that the department of agriculture are right on the job in investigating immediately any reported disease and pests attacking the crops of the farmers, and which the farmer is not acquainted and already two well posted men are down investigating the suspected fields.

The Daily Poem

THE PILLOW FIGHT.

Oh, apple trees on windblown hills,
And faint far calls of whippoorwills,
And fireflies, underneath the trees,
Woodsmoke on the evening breeze
From smouldering stumps in some far field,
And the white bed where we two kneel
When we were happy little boys,
And done with one long day of noise!
Or nearly done! Past each "good-night"
There waited the glad pillow fight,
And the upturning of the chairs;
Till dad would hammer at the stairs
And say: "Less noise up there, you two!"
Er! I'll come up to you!"
And then we both would hold our breath,
And the house would be as still as death!

And then he'd go and close the door,
And then the fight would rage once more,
And twice as fierce and twice as glad:
For who had any fear of dad?
Each time when he'd been to the stairs,
He'd go back to his easy chair,
And we would hear him chuckle,
He was the right dad for you and me!

Miss Agnes Rossier left Friday morning for Winnipeg, to be gone two months.

Mrs. Milford J. Bray and little daughter, Doris, of Midland, Ont., arrived in the city on Tuesday, to be the guest of her mother, Mrs. J. R. Sherwin, 117th street, and her sisters, Mrs. Hilda Morris, South Side, and Mrs. Floyd Baker, Spruce Grove.

Mrs. C. C. Reed, who spent the week-end in Ponoka, is spending a few days in the city.

Capt. Archer, of Innisfail, who has been visiting in town, returned to his home the first of the week.

Miss Doris Stutheby is spending a few weeks with Mrs. H. Hanna of 93rd street, of Saskatoon.

On Thursday evening at the home of Mr. and Mrs. H. S. Grant, 11220 86th street, a very enjoyable event took place in honor of Corp. Finlay and Pte. Stockman. The evening was spent in games, arranged by Miss Miller and Miss Grant. Miss Martin supplied the music, which added much enjoyment to those who were present. Luncheon was served at a late hour, after which all expressed their appreciation to Mr. and Mrs. Grant for the pleasant time they had.

To a fair crowd on Friday night the summer school for teachers gave a concert in the arts building of the university in aid of the Red Cross funds. Mr. Cuyler, president of the Students Union, made a good chairman and amused the audience with his witty remarks between numbers. The summer school orchestra gave four selections and played very well indeed adding considerably to the program and giving a great deal of pleasure to the audience. The volume of the orchestra was excellent. The folk dancing classes under the direction of Mrs. Elliott were good and supplied five numbers of interest. The girls club gave two choice numbers and were much appreciated. "Magic, An Interlude of Mystery," as it was designated, was a very clever and well planned amateur sleight-of-hand tricks done by two male members of the school which caused a great deal of interest.

Mr. Keate gave a solo, Miss Jessie Reid recited "Drummond's" "The Nice Little Canadiane," and Miss Steed sang a solo which brought the number was a motion picture, the title of which was "The Lure of Leduc." This was a clever "parody" so to speak, of motion pictures in general and was cleverly staged and much to the amusement of the audience. The program will be repeated in the Convalescent Home next week at an entertainment to be given by the Soldiers' Welfare league.

CUPID'S COURT

NELSON—LAW

At Eskine Presbyterian manse, on Friday, July 27th, by Rev. W. K. Thomson, Carl Martin Nelson and Vera Belle Law, both of Round Hill, Alta.

NEVE—MOFFAT

The marriage of Miss Jeanie Moffat daughter of Mr. and Mrs. Alex Moffat to Mr. Rex E. Neve, of this city, son of Mr. and Mrs. J. E. Neve, took place quietly yesterday afternoon at 4 o'clock at the residence of the bride's parents. The ceremony was officiated by Rev. Mr. Eiler, pastor of Grace Presbyterian church. A few friends witnessed by the relatives and a few friends. The bride wore a gown of white silk and lace, and was given away by her brother, Mr. Neve. The groom wore a tuxedo. The ceremony was held in the afternoon. The bride is a sister of Mr. Moffat of this city—Calgary Alberta.

BLACKSTOCK—DUGGAN

A quiet wedding was solemnized at St. John's Presbyterian church, in the presence of a few witnesses, when William Rossie, youngest son of the late Mr. and Mrs. Thomas Duggan of Llandrinod Wells, Wales, was united in marriage to Gilbert Macdonald Blackstock, daughter of Mr. and Mrs. J. W. Morrow LL.D., performed the marriage ceremony. The bride, who was given away by her brother, Mr. H. Oslen Duggan, wore a white broadcloth costume with white apple blossom trimming and a cameo brooch which was a family heirloom. A silver picture hat with a veil and a costume Those present at the ceremony were Mr. and Mrs. T. H. Raul, Miss M. Blackstock, Mrs. H. O. Duggan, and Mrs. J. W. Morrow. There was no reception. Mr. and Mrs. Blackstock left on the ten o'clock train for the coast to spend their honeymoon.—Medicine Hat News.

The bride is the youngest sister of Mr. D. M. Duggan, 8th avenue, and also of Mr. J. Duggan, 79th Ave.

MCREADY—MACLEOD

A pretty marriage took place at Leithbridge, in St. Augustine's church, when Muriel Margaret, daughter of Mr. and Mrs. N. T. Macleod, was married to Thomas H. McReady, Ph.D., only son of Mrs. A. E. McReady of Bowmanville, Ont. The ceremony was officiated by Rev. Mr. Macleod. The bride wore a stylish suit of bronze green gabardine, with blouse of cream georgette, and white hat with pink roses. Miss Nora Macleod, wearing flowered voile was bridesmaid. Capt. E. C. MacKenzie was groomsmen. The wedding breakfast was served at the home of the bride's parents, where the decorations were white peonies and columbines. The bride cut the cake with a dirk of the Macleod Kilt, which has been similarly used by generations of Macleod brides. Mr. and Mrs. McReady left by motor to spend a couple of weeks in the Windermere Valley. They will reside in Edmonton.

Sandwiches for Outdoor Supper
To the Editor of Woman's Page:
Dear Madam—Can you suggest several recipes for sandwiches to be served at a supper out of doors?

(Mrs. W. P. T.)
Boston brown bread and nut sandwiches, cheese sandwiches, egg sandwiches and ham sandwich rolls are nice for this purpose. For the first try the regular Boston brown bread, slice in very thin slices, butter and spread with mayonnaise and chopped nuts.

Cheese sandwiches—Wash a cottage cheese, season generously with paprika, spread between slices of thinly bread, cut off crust and cut in shapes that can be handled daintily.

Egg sandwiches—Boil the egg hard. When cool, shell and chop fine. Add a little butter, pepper and salt or a little salad dressing to make the mixture soft and easy to spread. Spread on slices of brown bread, cut in rounds.

Ham sandwich rolls—Cut some fresh bread very thin and of square shapes. Chop some cold boiled ham very fine, mix with the yolks of one or two uncooked eggs, a little pepper and mustard. Spread some of this mixture over the buttered slices and bread, roll them, pinching each roll at the end to keep it in shape.

Delicious Mushroom Pie.
To the Editor of Woman's Page:
Dear Madam—For those who like mushrooms here is a delicious pie made from them: Pat and roll pie paste one-fourth of an inch thick and line a baking dish with it. Prick with a fork all over the bottom. Brush one pound of mushrooms, separate the stems from the caps, peel caps and cut stems in three parts, cover the bottom of the dish with three tablespoons of melted butter, and three tablespoons of onion juice, add one-half teaspoonful Worcestershire sauce and one and a half tablespoons of melted cream. Repeat the layers until the dish is filled, then put strips of paste over the top radiating from the centre. Bake until the pastry is brown. (Mrs.) C. M.

Bugs on Plants
To the Editor of Woman's Page:
Dear Madam—Please tell me what is good for killing green bugs on house plants. I have washed them several times but this has no effect. They become so thick on the plants that the leaves turn yellow and fall off. I would also like to know what is good for the skin when badly sunburnt. Yours truly,

ANXIOUS.
Washing will do no good. The little green flies hatch very fast and on the leaf and in the earth. The best remedy is to procure tobacco paper at any florist (I believe it is about ten cents a sheet) and cut the plants in a box or very small room and let the paper smolder. This treatment should be done at intervals of a week apart for three treatments, when it will be found to be effective in not only killing the little "green bugs," but destroying any eggs. Another way, not so good, is to pull apart old cigars and rub the same manner as the tobacco paper. A good reliable face cream gently applied to the affected parts and an application of pure talcum is very effective. Do not use water to the sunburnt until the cream takes the heat aggravation out and the talcum soothes and cools.

Wedding Procession.
To the Editor of Woman's Page:
Dear Madam—At a home wedding, how should the bridal party enter the living room, where the ceremony is to take place?

The wedding party consists of a maid of honor, best man, bride's father, bride and bridegroom. How should they be grouped for the ceremony?

Should the minister face the gathering?

For a home wedding the bridal party should enter the room in the following manner: The clergyman leads, followed by the bridegroom and best man. When he reaches the place before which the bride and bridegroom are to stand for the ceremony he turns and faces the people and the bridegroom, and the best man stands at his left hand, also facing the guests. When they have taken their places the maid of honor enters the room, followed by the bride, who rests her arm on the left arm of her father. Her father then steps to one side and the maid of honor steps to the side of the bride, while the best man remains beside the bridegroom. A five new face clematis, who performs the ceremony. That it doesn't hurt a man's vanity so much to discover that his wife knows as much as he does; what hurts him is to have her discover it.

That swimming is easy for women if new strokes are learned, says America's champion, Miss Clair Galligan, who advises beginners to use crawl strokes, as speed comes after long practice at a snail's pace.

That the general effect of fall blouses is trending towards the English ideal, of long loose, but never bulky lines, and the front slightly full at the shoulder and the back with a yoke are to be popular.

That there are two classes of women—those who read, and those who do not; those who are doing things and those who are sitting back and saying, "It can't be done."

That the flat or roll sailor collar is better for girls than for older women, though the older women persistently overlook this fact, possibly because a majority of the cheaper blouses are made with it.

NEXT MONDAYWill Appear in Second of Arcraft

Aircraft.

At the Monarch theatre commencing next Monday, Douglas Fairbanks, the popular exponent of the smile, appears in his second production released by Aircraft Pictures, entitled "Wild and Woolly." The scenario, brimful of typical Fairbanks humor, by Anita Loos, authoress of many of his past successes, has been produced under the direction of John Emerson and discloses Douglas in what is felt to be his greatest portrayal.

For this film the strenuous actor-producer has been practicing stunts since last summer and even while appearing before the camera. In other picture his lariat was always nearby so that he could try new tricks whenever he had a few minutes to spare. One evening a friend found him in his New York apartment attired in dress clothes preparatory to attending a social affair, lassoing the door-knob while waiting. Whenever he found an opportunity for out-door work the ambitious actor hired a pony to practice western tricks. As a result of all this training, for it was just that, the athletic screen favorite presents in "Wild and Woolly" a remarkable display of cowboy accomplishments depicted in his own inimitable style.

Starting in New York and ending in California, the picture discloses a variety of metropolitan and western scenes presenting the proper background to the story. As the youth of metropolitan birth who finally realizes his ambition to ride the plains of the West astride a bucking broncho, Douglas Fairbanks offers a wonderfully effective picture in the role of Jeff Hillington. Jeff's visions of life in the West are based entirely upon the gaudy colors of ten-cent weeklies which he has been reading since early boyhood. He pictures the West today exactly as photographs show it to have been in the early eighties. Friends in Arizona plan to live up to his expectations and to their own surprise things turn out more seriously than they anticipated. The story ends, after many amusing as well as thrilling situations, with Jeff as the man of the hour. An able cast appears in support of the star, including Eileen Calvin Carter, Forest Seabry, J. W. Ercy, Walter Bytell, Joseph Singleton, Jones, Charles Stevens, Sam de Grassie and Tom Wilson.

THREE DAYS STARTING MONDAY

Patrons of the Empress theatre have seen Douglas Fairbanks on the screen many times, and liked him better with each appearance, and the news that he comes again to the Empress theatre for the first three days of next week will be welcomed by thousands. Some of his former plays have been "The Lamb," "Double Trouble," "His Picture in the Papers," as strenuous a story as could be imagined; "The Habit of Happiness," a story that lived fully up to its title, and made people feel that there are better things in this life than the books say; "The Good-Bad Man," "Reggie Mixes In," that love story that called for some furious combat before a wife was won; "Flirting With Fate"; "The Half-Breed"; "Manhattan Madness," the most original story ever told either on paper or the screen; "American Aristocracy," and "The Matrimonial."

"The Americano," his new Empress vehicle, carried his same breezy personality through adventure after adventure, hurdling obstacles of all

kinds, and, of course, winning the girl he loves, a girl who is well worth going after. Her attractiveness is accentuated in that she is portrayed by Alma Reuben, the charming actress who appeared opposite William S. Hart in "Truthful Thelma," which showed in Edmonton a few weeks ago. Fairbanks has to climb over the wall surrounding the presidential palace in the capital of the revolution-torn republic of Paragonia, where the girl he loves is kept a prisoner, and up the side of the building to the balcony of her room. He has to rescue the president from a cell in a prison in a room overlooking the sea and presumably impregnable. He has to face a whole army of soldiers who are taking aim at him with their rifles, and he has to do a wide variety of other stunts too numerous to mention. His smile is continually on the screen, and it is so infectious that you will find yourself trying to imitate it for weeks after you have seen the film.

Hobbed Hearts, a special Keystone Comedy, will be an added feature on this program, and the management announces that the regular Empress prices will prevail.

movement. The setting discloses recruiting booth for the female detachment of the army, conveniently located just outside the stage door of the "Follies" and the placards, invoking the patriotism of the girls to step up and join, are in evidence everywhere.

The feature of the bill will be the dramatic morality playlet, "Everyman's Sister," which will be presented by Frederick H. Speare and company. The playlet is in the form of an allegory, which calls to mind "Everywoman," "Experience" and similar plays. Frederick H. Speare, who appears in the leading role, and Ben McQuarrie are the featured plays. Mr. Speare

MAJESTY

The attraction announced to furnish entertainment at the Majesty theatre on Monday and Tuesday is "Bringing Home Father," a comedy drama touching lightly upon the question of equal suffrage and involving the outcome of a prohibition movement in municipal politics. The political features are not inspired by any motive other than to furnish the motive for lively entertainment, with an engaging love story carried to a happy conclusion through numerous amusing episodes. Franklin Farnum and "Brownie" Vernon, who will be agreeably recalled by the "fans" for their engaging performance in earlier Bluebirds, will play the leading roles, with

Richard Le Reno, Arthur Hoyt, and Frances Mayon principals in a clever supporting company.

For a few minutes the whole company was "stumped" when it came time to film the dancing scenes in chapter four of "Gloria's Romance," the motion picture novel in which Billie Burke is appearing on Monday and Tuesday at the Majesty.

The scenario of the play, provided by Mr. and Mrs. Rupert Hughes, has one of its most important scenes laid at a ball given at the home of Pierpont Stafford, New York millionaire and father of Gloria Stafford, the character enacted by Billie Burke. As one of the most important parts of this important scene, the script calls for a flirtation between Gloria and Freneau, the villain who is seeking to win her heart and hand, said flirtation to occur while the two are dancing together. Now David Powell, who is creating the role of Freneau in the production doesn't dance—or at least he hadn't learned to on the day when Director Edwin was ready to film this scene.

FARRAR FILM RETURNS FOR WEEK STAND

"Joan The Woman" Directed By
De Mille, Exhibited in
Eleven Parts

Based on the life of the immortal Joan of Arc a motion picture production in eleven parts entitled "Joan the Woman," directed by Cecil B. De Mille, with Geraldine Farrar in the role of Joan, will begin an engagement of one week at the monarch theatre, Aug. 6th.

Although Miss Farrar a year ago acted in three short photo-plays under Mr. De Mille's direction at the Lasky Studios, "Joan the Woman" will mark her first appearance as the star in a cinema drama of length sufficient to comprise an entire evening's entertainment.

There is a certain timeliness about the story of Joan of Arc, as it has been reported frequently from France that public interest in the Maid of Orleans never was so keen as at the present moment. Although the story of "Joan the Woman," written for the screen by Jeanie Macpherson, has been carefully guarded, it is said that Mr. De Mille and Miss Farrar have touched upon this feature of modernism in relating one of the most fascinating stories of mediævalism.

All the scenes of the picture were made last summer in California. Miss Farrar having spent more than four months in the motion picture colony. As to the historical accuracy of costumes, armor, heraldry, buildings and the personnel, that portion of the production was in the hands of the famed Buckland, formerly of the artistic staff of David Belasco. Mr. Buckland and Mr. De Mille for two years have worked side by side in the Lasky studios and the assembling of material for "Joan the Woman" consumed many months of that time.

Nothing more strikingly portrays the lavishness of "Joan the Woman" has been staged than mention of the members of the cast. The hero is played by Wallace Reid, who was the Don Jose in Miss Farrar's film production of "The Sign of the Cross." Robert Bosworth, as La Hire; Theodore Roberts, as Cauchon; Raymond Hatton, as King Charles VII; Tully Marshall, as Laisleur, and Charles Clary, as La Tremolle.

EMPRESS

It is some months since Douglas Fairbanks has been at the Empress theatre, and it will be welcome news to the fans to know that he comes again the first three days of next week in "The Americano," hailed far and wide as fully up to the best thing he has ever done, and that is saying a lot. The play is based on a stirring adventure in a South American country upset by a revolution. Fairbanks, of course, is the centre of things; he always is. He appears as Blaise Deringer, the play having been made from the novel of that name. Blaise goes to the republic of Paragonia to represent some American mining interests. The principal reason why he undertakes the commission is that he has had in New York a glimpse of the beautiful daughter of the president of Paragonia and is exceedingly desirous of her further acquaintance. On his arrival in the country he finds the president in hiding and the company's offices demolished. There remains of the office staff only one survivor, a negro porter who has spent most of his time since the political uprising in the cellar. Joining forces with this lone survivor, Blaise sets about establishing conditions of peace, righting the wrongs of the imprisoned officials and generally bringing about a state of affairs where he can do business for his company and marry the

McLaughlin Breaks Canadian Record

Beverly Robson broke the Dominion record for half-mile on the Guelph (Ont.) track on July 2nd, making the half-mile in 39 1/4 seconds. This is a tribute to Mr. Robson as driver and to the efficiency of the McLaughlin D-6-63, with which the above record was made.

"LIZZIE" FOUND NUDE; ONLY LICENSE LEFT

How would you like to have a new Ford delivered on a Monday, take your wife out on Wednesday and come out of a friend's house at 10 p.m. to find your "Lizzie" nude, minus tires, lamps, windshield, hood, clock and cushions—all except the license plates?

This was the experience of Alderman May, of Stonewall, on visiting Mayor Austin's house Wednesday night. No trace of the thieves has been found.—Winnipeg Telegram.

AUTOS AND AIRSHIPS

Autos are becoming as numerous as seagulls now, if you don't have one you are a back number. Some are talking of getting airships.—Hanna Herald.

It is estimated that in the vicinity of \$60,000 has been spent this year in automobiles in the districts of Vermilion, Lethbridge, Mannville and Innisfree. All the popular makes have been sold and most of the purchasers were farmers.—Vermilion Standard.

girl of his choice. It is enough to say that in order to carry out this program that he has to do more things that Douglas Fairbanks has ever before done in five years of picture. A pitched battle with four Paragonian athletes who endeavor to squelch him, is one of the interesting features of the picture. From a dramatic standpoint "The Americano" is said to be the best play that Fairbanks has had yet, affording him full opportunity for the exercise of his unique talents. During the last three days of the week is "The Unwelcome Mother," a big feature, with Walter Law and an all-star cast of players. It is the story of a mysterious man who falls in love with a girl he scarcely knows, and originates his own marriage ceremony. Law plays the part of Mason, a man used to having his own way, who brooks no interference. In the end he finds that a woman's real love is the only thing powerful enough to dislodge his strength.

AUTO DRIVERS OF BON ACCORD ARE INTERESTED

On Question Of Road Improvement And Willing To Co-Operate.

The fifteen auto owners of the Bon Accord district are interested in good roads and in the roads being kept in good repair all the year so that they can get a maximum use out of their auto investment. Like other auto owners they are in favor of the elimination of ruts before they have a chance to deepen and become mud holes. The Bon Accord automobile owners are behind the twenty auto owners of the Namoo district in urging for the maintenance of the road from Namoo to Edmonton in as near perfect condition as it is possible to keep it.

Owing to the traffic getting heavier and more vehicles using the road as it nears the city the stretch of road from Turnip Lake to the pavement of Alberta avenue is usually the worst feature of the trip to the city.

Not only the auto owners but the farmers who drive single horses and even heavy loaded wagons should be willing to co-operate in any move to improve and maintain in an improved condition this stretch of road, the surface of which has sub-soil from the ditch which was dug some years ago to drain the road and make the road possible.

Some of the pioneers of Bon Accord well remember the early days before Turnip Lake was drained and a three or five mile round-about had to be made to get to town. While the road now is much better than it used to be yet it is far from being as good as it should be.

By united co-operation of all concerned and a working together of the farmers, who drive autos or teams or even single horses with the members of the Edmonton Automobile Club, who frequently run out on this road, a strong pressure could be brought to bear on the city, local improvement district and provincial government to devise some systematic way of keeping this stretch of six miles of road near the city in such shape that there will be delight in the hearts of all who use the road.

The more travel, the more wear and the more ruts, but also the more travel the more need for keeping the road smooth and in shape every day of the year.

The names of the fifteen automobile owners of the Bon Accord district follow: John Milligan, Clifford McCue, Berry Bros., Alex. McDonald, H. A. Whitaker, Karl Nelson, Louis Nelson, Rex. Hewitt, Tom Jenkins, Archie Sloan, J. A. Williams, John Brown, Brown-Rickard and Co., and C. E. Owens.

NECESSITY AND INVENTION

(Wall Street Journal)
War played havoc with London's gasoline and petroleum supply. The National Steam Car Co., owning 172 steam omnibuses with paraffin fuel, was a patient sufferer, and the shortage of fuel forced the withdrawal of a number of buses, but not for long. Coke burners were tried with such good results that the whole fleet has been converted to coke burners.

The advantages claimed for the new contrivances are: speed, no fumes, flexibility, easy to drive and a light chassis. At a trial with a load of 2 3/4 tons, one bus ran 219 miles at a speed of 12 miles an hour, on a total consumption of 850 pounds of coke. The cost was about 1 1/2 cents per mile for fuel. On the basis of 400 miles run each week, it is claimed coke will save \$1,500 per car annually over the paraffin fuel. At the pre-war prices the yearly saving would be about \$750 per car.

SOME GOOD ROADS LEADING TO ALLIANCE

During the past few weeks Mr. Arthur Peacock, government road builder, has done some splendid work on the several roads leading to Alliance.

On the east and west road, just east of town, about five-eighths of a mile has been graded and put in excellent condition (this piece of road was utterly impassable this spring). He has just completed four miles of grade on the north and south road, thus giving the residents in that vicinity a direct route into town, whereas heretofore they were compelled to drive several miles around.

ON CROSSING STREETS

If a motorist is tempted to cross a street at any place other than at an intersection, he should remind himself of the following section of the Motor Vehicles Act:
"Any person operating a motor vehicle on any street or highway within any city, town or village shall operate such motor vehicle in such manner that the same shall not cross over from one side of such street or highway to the other side thereof between intersecting streets or highways. All parties doing so are liable, for a first offense, to a penalty of \$20 and costs."

FROM MONTANA TO ALTA. BY AUTO

Mr. Walkerton and party passed through Bittern Lake on Monday last in his car. Mr. Walkerton is touring Alberta with a view to taking up land. He left Montana one week previous and made the entire trip by car. He found the roads very good for motor- ing and was much pleased with the look of the country.—Camrose Canadian.

PROVOST AUTO CLUB IS VERY ACTIVE

The Provost Auto Club has met with good success in securing members and all have taken a marked interest in the work of the organization. The committees in charge have already put in several culverts which were badly needed in the roads. It is to be hoped that all auto owners and the public at large will give this organization their support in the good roads movement which they have undertaken.—Provost News.

WHY DOMINION TIRES ARE GOOD TIRES

DOMINION TIRES present four features that make them distinctive in Canadian tire construction:—

First—in Economy—
in greater mileage.

Second—in Pleasure
—in smoother riding.

Third—in Convenience
—in freedom from tire troubles.

Fourth—in Satisfaction
—in having tires that give such service.

DOMINION "NOBBY TREADS" are the most economical in the end, just as they cost more at first. They are "the Aristocrats of the Road" as far as smoothness and comfort are concerned; are as nearly puncture-proof as any tire can be, and give a mileage that sets the long-distance record for Canada.

DOMINION "CHAIN TREADS" with their anti-skid cup-shaped links, are worthy of a place on any car, no matter how luxuriously appointed. In their price class, they are the recognized leaders, and acknowledge no superior at any price, except Dominion "Nobby Treads".

DOMINION TIRES are always the best tires to buy.

McLAUGHLIN again wins Reliability Test

THE GRAND PRIZE OF THE OTTAWA-PRESCOTT
HIGHWAY RELIABILITY TOUR GOES TO
DR. R. E. VALIN AND HIS McLAUGHLIN D-SIX-45

Sixty-five motorists driving cars of all makes started on June 28th in the Reliability Tour from Ottawa to Alexandria Bay via Prescott and Gouverneur, N. Y.

The McLaughlin D-Six-45, driven by Dr. R. E. Valin, emerged with a perfect score of 1000 points from the gruelling tests to which all were subjected. So keen was the competition for highest honors that Referee Edenburn had to devise special tests in which the McLaughlin proved its superiority.

McLaughlin supremacy in points of Power, Easy Control, Efficiency and

Economy has again been established by this Tour.

The results of the tour reflect credit on Dr. Valin as well as on Canada's Standard Car.

The Reliability Tour was not a road race nor a speed test. No professional chauffeurs took part. Owners drove their own cars and the tests brought out the best both in car and driver.

Canadians who want the joys of motoring, without the annoyance of mechanical trouble, will heed the lesson brought out by this tour and make their new car a McLaughlin.

His Other Name is Love

The International Sunday-School Lesson for July 29 is "God's Gracious Invitation."—Isa. Ch. 55. By William T. Ellis.

A man's first spontaneous thought of every person he knows is a picture of some one action, incident or aspect of that personality. Later, the man's whole life may come into review, but the first glimpse is of particular characteristic. The same law applies to one's attitude toward religion. Nobody thinks a whole system of theol-

ogy concerning the person whose name the religion of civilization bears. Just what this immediate, spontaneous thought of people may be toward Christianity is of vital importance. Do they look upon it as a court of stern and inexorable justice, which inevitably squares accounts with every human frailty? Is it a sleepless eye, eager to discover mortals in wrongdoing? Is it a system of rigorous and cramping rules of conduct? Or is it a scheme of general philanthropy?

The Statue in the Hospital. Doubtless there will be general agreement of opinion that the sculptor, Thorvaldsen, was right. In his conception of the white Christ. When he set out to make a statue of Jesus in a characteristic attitude he did not portray Him with a pile of cords in His hand, nor in debate with the law. He was a worker of miracles. Instead as the replica of a statue which stands in the grounds of a great southern hospital, he has chosen as the characteristic attitude of Christ and His Gospel, that of invitation; and everyone who enters this house of healing beholds a figure of the tender-hearted Jesus with outstretched hand of entreaty, saying: "Come unto me all ye that labor and are heavy laden, and I will give you rest." This word "come" connotes and comprehends all the New Testament teaching, and it is found in the loftiest utterance of the Old Testament as this lesson shows: "Go, every one that thirsteth, come ye to the waters, and he that hath no money, come ye, buy, and eat; yea, come, buy wine and milk without money and without price."

The Fifth Avenue Affair. It is refreshing to find something in these days that does not bear a price tag. It is the fashion of our materialistic times to put a price upon everything. "It costs so much to live" is the universal complaint of men and women who are spending all the money they can by means make—and spending too, not for more previous than money—for the mere outward accessories of modern existence while missing too often, the realities of life.

For that is a part of the situation. It is forever "pay! pay! pay!" and yet get nothing that is worth while. Contrary to prophet's terms of entrance into the best society, the society of the true, the pure, the noble—with the cost of indulgence in the fads and fancies of the "smart" set. These are very modern words which the old prophet spoke: "Wherefore do ye spend money for that which is not bread, and your labor for that which satisfies not? Any one who has seen with discerning eyes the Easter parade on Fifth Avenue, or that larger and more cosmopolitan one on the Boardwalk at Atlantic City, is ready to quote the wise man's words, "Vanity of vanities, all is vanity," or those other words, "The whole world walketh in a vain show." It's an outward seeming that gives no real inward joy. Today everybody who can do so goes away on a vacation, and the material object sought is not the pleasure or profit of the outing, but merely the vanity of being able to conform to fashion and of having the experience to bray about to less fortunate neighbors. The sheer foolishness and emptiness of much of the life of the times that is consuming the spirit's blood of people for whom their Maker planned better things, is enough to make the angels weep. At least the world is being schooled by the war that is stripping civilization of many of its vain trappings.

The Fat and the Lean. The world requires no proof of its own deep dissatisfaction with itself. In serious mood, men and women will frankly confess that they and their neighbors are spirit sick, spirit hungry, and spirit thirsty. That is what really ails society. It is trying to satisfy its profound needs by gratifying its empty desires. Therefore, the peccol of unrest has written its ugly lines upon the faces that we see all about us. We are living in a life of fat circumstances and lean souls. We are feeding our bodies luxuriously and starving our souls miserably. The husks of materialism are no food for

the man whom God has made a living spirit in His own image. We need tremendously to hear this wise word from the ancient Hebrew writings, "Eat ye that which is good, and let your souls delight itself in fatness." Better a big life in a little house than a little life in a big house. Richness and largeness of spirit are more to be desired than any of the blessings of estate. There are too many "Tomlinsons of Berkeley Square," who live the conventional round, but never grow a soul that even Satan can respect.

He who lives a life of the spirit should have the patience of the truly spiritual. The monkeys are despised of the jungle folk because they are always in a hurry, and cannot plan for more than a day at a time. All strong creatures win their souls in patience. God shows His Godship by His willingness to wait. He is never in a hurry; the eternal years are His. The proverb has it "God's payday is sure, but it does not always come on Saturday." All of His plans include two words, Russia and Rome are not incidental with Him to whom a thousand years are as a day. Looking backward to the heaven's battlements we may discern a meaning in our present world affliction that justifies the entire cost. There was comfort for ancient Israel, and for all others today, who in hard circumstances would live the serene life of the spirit, in the promise of a better day in the unseen future when the wall of God shall be wrought out in perfectness. The promise to Israel was, "Behold, thou shalt call a nation that they knowest not and nations that know not thee shall run unto thee."

It is hard for self-assured humanity to realize the word that came to Isaiah, "My thoughts are not your thoughts, neither are your ways my ways," said the Lord, for as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts." "Do let God be God," cried Mr. Spurgeon, grasping the truth.

The assurance of the old prophet, of a final day of victory, is nothing less than divine. This confidence in the ultimate triumph of truth has characterized all great reformers. The inevitableness of God's will is the comfort of the good, and the terror of the evil. If the devil ever feels despair it is because he knows that he is only the devil, while God is God. And God has said, with the calm assurance of conscious omniscience, "My word shall not return to me void, but it shall accomplish that which I please, and it shall prosper in the thing whereto I sent it."

Studebaker

Important Information for Automobile Buyers

YOU generally appreciate the advice of an expert when you make an important purchase or investment. You are glad to get authoritative opinions. You like to feel that your final decision will be right.

Apply this method of buying to your automobile.

Mr. Frank Groch, of the Grodwards Company of Cobalt, Ontario, is an automobile expert. He sells motor cars. He is a very successful merchant and like all successful merchants realizes that his business rests on the satisfaction of his customers.

Here is Mr. Groch's own story of how he became a Studebaker dealer:

"When I decided to enter the automobile business I looked around for what I called a fool-proof car. Although I am an engineer I had had no experience with cars. I decided that there were four primary points which were fundamentally necessary in selecting an automobile.

FIRST—the reputation of the manufacturer for square dealing—I finally decided that as Studebaker wagons had been 'it,' Studebaker automobiles must be, too.

SECOND—the firm must build automobiles in quantities large enough to cut down that vast overhead expense necessary in keeping up with the times and making the car fool-proof.

I visited many plants and finally decided that at Walkerville, Ontario, Studebaker had the plant and the equipment.

THIRD—the car itself—I examined many cars and talked with many owners in Canada, paying particular attention to the motor.

Of all the cars I examined under the price of \$2000 I felt that Studebaker was the best built and best equipped.

FOURTH—Service—this term I found to mean many things. Every manufacturer had talked it but none really put it into practice except Studebaker. I found that the Studebaker Corporation was spending upwards of half a million dollars a year to maintain its cars in perfect running condition after they were sold. I found that the Studebaker Service Department sends special service men wherever their cars are sold to see that anything which is not understood by local mechanics is thoroughly explained.

Ran Studebaker Three Years—Spent \$25 for Repairs

One of the first Studebaker Cars I sold is owned by a mining engineer. This gentleman spent less than \$25.00 for repair parts in three years. All other Studebaker Cars sold in my territory have had similarly low costs for upkeep and there is no more severe test for a car than long service on the roads around Cobalt.

From Detroit to Palm Beach, Florida, Total Car Expense \$41.89

On December 7th, 1916, I left Detroit with my own Series 18 six cylinder touring car and with seven

In the car drove to Toledo and Columbus, Ohio, Wheeling, West Virginia, through the snow-covered Cumberland Mountains, through Augusta and Savannah, Georgia, Jacksonville and St. Augustine to Palm Beach, Florida.

My total expense for the trip for gasoline, oil, washing the car, storage and all other car expenses was \$41.89. That is why I am enthusiastic for Studebaker."

Significant Facts

When Mr. Groch entered the automobile business he had no ax to grind for any particular concern. He chose Studebaker Cars from the entire field because a careful, thorough, scientific investigation showed him that Studebaker cars were the best value for the money.

For four years Studebaker cars have been giving satisfactory service to Mr. Groch's customers. His business has grown to large proportions because of it.

It is certainly worth your while to investigate the Studebaker proposition thoroughly before you buy any car. Studebaker cars have made good for thousands and thousands of people and will make good for you.

There will be no change in Studebaker models this year, but the increased cost of materials and labor may force Studebaker to make an advance in prices at any time without notice.

DUNLOP TIRES

What "Dunlop" Means

PEOPLE never speak of over-production in Quality, yet we might "trim down" "Traction" or "Special" and conscientiously sell them to you as good tires. But we could not still call them "Dunlop." That word in tire value means more than merely making a tire. It means a reputation for superior tire-making that embraces nearly a quarter of a century—a reputation which was obtained only by endless energy, and is maintained only by ceaseless vigilance.

NEWS OF WEEK

FARMERS OF JARROW RAISE \$500 THROUGH UNION PICNIC FOR BENEFIT OF RED CROSS

Town Presents Gay Appearance For Annual Event—Residents Say District Is One Of Best For Mixed Farming In Alberta—Valuable List Of Prizes Was Awarded At Keenly Contested Sports.

Over \$500 by the time the acre of wheat is marketed, was the net amount realized for the Red Cross at the annual picnic and sports of the Local 258 of the United Farmers of Alberta recently held at Jarrow, 102 miles east of the city, on the G. T. P. main line.

So keen was the pleasure of supporting this worthy fund that when a heifer which had been donated to the fund was bid up to \$50 it was redonated by the buyer, who at the second auction of the animal bought it at \$55. This price of \$105 for a Red Cross heifer is probably a record for the province, so it was no wonder that some were heard to remark "Long may she live and may her tribe multiply."

A quilt, the work of the Ladies' Aid, was bid up to \$12, a chicken brought \$8 and young pigs were sold as high as \$30. But financial contests were not the only fun, for there was added the series of races and games which were all keenly contested and

proved of great enjoyment to all in the large crowd.

The grand total of receipts from all sources amounted to the magnificent sum of \$458.15, from which was deducted the expenses of \$175.31, leaving a balance of \$282.84 placed in the local bank to the credit of the Red Cross Fund and which the manager agreed to transfer to the Edmonton office free of charge.

The village of Jarrow presented a very gay appearance with its foliage-bunting and flags, the main street having been planted with trees the day before, by the townspeople as a visible expression of welcome to the visitors.

Fine Mixed Farming District.

The residents of Jarrow claim that it is one of the best mixed farming districts in Alberta and judging by their generosity on this occasion, it must be a very prosperous community. This is further confirmed by the number and style of the autos seen in town that day.

The Cold Springs band was in attendance under the able leadership of Stuart Cappell. They entertained with fine music during the day.

One of the most interesting features of the day was the sale by auction of the different animals and articles donated to the Red Cross fund. A. Lennox gave a heifer which was knocked down for \$50 to A. Furkes, who again donated it to the fund and again bought it at the highest bid of \$55.

The following is a full list of the donations and the amount realized from the sale of the animals and produce so generously donated and so skillfully sold by the jovial auctioneer, W. Wyatt, who officiated in the unavoidable absence of Hal. Charlton.

Special donations:

A. Lennox, heifer, \$50; A. Furkes,

heifer, \$55; C. Ahlf, pig, \$25; W. Conley, pig, \$30; S. Murray, oats, \$7; V. Wyatt, oats, \$10; Mrs. D. Widden, chicken, \$7; F. H. Pendleton, chicken, \$5; Mrs. F. Allen, lamp, \$4; H. Albright, lamp, \$5; Ladies' Aid, quilt, \$12. The following cash donations were received: J. D. Mannes, \$10; Holloway Bros., \$10; Hal. Charlton, \$5; J. F. Murray, \$5; Jack Rice, \$5; Carl Ahlf, \$5; North Side ball team, \$10 prize winnings; Cold Springs band, \$25; fees for the day; E. Moore, 75 cents; Jarrow Ladies' Aid, from names on quilt, \$7.90; W. G. Jackson, \$2; R. B. Sisson, \$32, from services of his 10-horse Clydesdale, Donald Craigie.

R. T. Meakins, secretary of the local branch, donated one acre of Marquis wheat grown on summerfallow. He agreed to have it threshed and hauled to town. As this is a fine looking piece of wheat it will add a nice sum to the fund.

The Edmonton City Dairy through their local agent, Mr. Ainslie, gave ice cream, the sale of which brought \$6.30. The dance proceeds in the evening netted the fund \$28.

In Charge of Refreshments.

W. Wyatt with Mrs. J. M. Moore as chief assistant, had charge of the refreshment department, catering to the large crowds all day. Other assistants in the refreshment service were Mesdames Waite, Loring, Bailey and Jamieson, and Misses Beins and Loring. The proceeds of this department were \$187.15, and the sale of tags made by A. Furkes and W. Conley added \$35.25 to the fund.

The program included several exciting races—automobile races, horse races and the usual athletic contests, baseball games, tug of war and other interesting features. The winners of the races were:

Horse race—J. Lester B. Brown; 2, C. Shippy.

Coyote race—1, Barlow Granger; 2, O. Christenson.

Auto race—W. G. Jackson.

Auto race, free-for-all—A. Furkes.

Among those who took the first prize in the foot races were:

50 yards—Alice Wilson.

50 yards—C. Albright.

100 yards—Stanley Sisson.

100 yards, free-for-all—1, Brown. Ladies' race—Elsie Phoeasey.

Veterans—J. Robe.

2-legged race—V. E. Moore.

Jumping—Gilbert Brown.

Putting the shot—E. Overbo.

In the tug of war, the south side defeated the north side.

In the baseball game the north of town defeated the south.

Other winners of prizes were: N. Skin, C. Hubbs, Fred Biscoll, E. Erickson, Mrs. Skin, B. R. Bailey, G. Moore, C. Knowles, S. Guitner, and C. Larson.

The prizes were numerous and valuable. The judges were R. B. Sisson and J. A. Lennox for horse and auto races, while Carl Ahlf and W. Conley picked the winners in the foot races.

As the shades of evening were falling, the young folk and their elders also participated in the enjoyable dance which was held on a special floor which had been erected on the grounds through the kindness of W. Wyatt, who loaned lumber for the purpose.

The hospitable Mrs. A. Furkes was on the grounds entertaining to lunch a large company of her numerous friends. Sitting at her table were noticed Mr. and Mrs. Curtis, of Edmonton; Mr. McGregor, Mrs. A. McGregor, R. T. Meakins, W. Conley and N. Lindholm.

Much credit for the carrying out of this exceedingly successful affair is due to the committee in charge. They were as follows: W. Conley, chairman; J. W. Wyatt, secretary and auctioneer; J. D. Mannes, treasurer; Olaf Larson, music; A. Furkes, starter and tags, and Mrs. J. M. Moore, refreshments.

FAIR LAND SOLD

Issues Report On Vegetable Crop

The fruit commissioner's branch of the Dominion department of agriculture has issued the following report regarding conditions of the vegetable crop in Canada in July:

POTATOES

British Columbia.—The acreage is estimated at about 5 per cent. increase over an average crop. The plants are looking especially healthy and give promise of a heavy yield.

Alberta.—An average crop is looked for in this province.

Saskatchewan.—There is a substantial increase in the plantings. It is too early to estimate the yield.

Manitoba.—Indication now for a full average crop.

Ontario.—In no case has a decrease in the acreage been reported from any commercial district. It is estimated that the acreage is considerably more than last year and from 5 per cent. to 10 per cent. above the average. Recent indications are for a yield per acre considerably above the average.

Quebec.—An increase in acreage is reported with prospects for a yield above the average. Some early plantings on low land were destroyed by rain and continued cool weather, but these have been replanted with late varieties.

New Brunswick.—There has been a 20 per cent. increase for the acreage planted, with prospects of a normal yield per acre.

Novia Scotia.—Some districts report increased planting of from 25 to 35 per cent. The province on the whole is expected to show a substantial increase both in acreage and yield.

Prince Edward Island.—This province also reports increased acreage of from 10 to 15 per cent., and in addition to this, spraying is much more general. With favorable weather conditions a large crop should be harvested.

UNITED FARM WOMEN ASKED TO SAVE EVERY SCRAP OF FOOD AS PATRIOTIC DUTY TO THE ALLIES

Leona R. Barrett, Provincial Secretary of the U.F.W.A. Appeals to Members of Local Clubs to Practice Patriotism—Expresses Indignation at Disclosures of High Cost of Living Commission.

An appeal to the United Farm Women of Alberta is made by Leona R. Barrett, provincial secretary, in regard to the handling of the food supply of the home as part of the campaign to conserve the food supply of the nations of the world so that the allies might win in the war. Indignation is expressed at the disclosures of the High Cost of Living Commission. The local clubs of the United Farm Women of Alberta are asked to discuss the problems of food conservation in a practical and patriotic way and encourage action to save the food supply.

Appeal to Non-Services.

The woman who is handling the food supply in the home is equal in importance to the man who handles the gun on the battlefield. The triumph of the soldier depends upon the efficiency with which you as housewives conserve the food supplies and let hunger be not added to the ranks of the foe. We are a beaten people if we allow a serious food shortage to develop. Whether or not we go hungry and suffer defeat is now up to you as women. Hence is the appeal to the women of the United States from one who is an authority on the great food question.

Now what position are we United Farm Women going to take in regard to this food shortage? Are we going to be slackers? The consequences are so momentous that the humblest effort and if we have ever felt that household tasks were drudgery, we have now an opportunity to make them divine.

Mr. Hoover, the food controller of the United States, a man universally respected for the wonderful work he did as head of the Relief Commission for Belgium, asks his countrywomen among other things:

Motives for U.S.

"To stop and ask, 'Can it be used?' before throwing any food away.

Stop catering to different appetites.

No second helpings.

One meatless day a week.

No butter in cooking-use substitutes.

No young meat of any sort.

Food Controller Hanna has asked us to reduce by one-third our consumption of wheat, bacon and beef. Instead of wheat we can substitute rice, oats and cornmeal. As present prices are, it does not mean any reduction in cost, but it does mean a conservation of wheat. This does not entail any hardship, for we shall be healthier for a more liberal use of the coarser grains. I understand that a

committee of experts are working on a scheme by which we can secure the desired result of saving food. I have asked the farm papers to publish the recommendations of this committee as soon as they are made public. These will tell us what foods to substitute, and the proportions.

Duty to Save.

As there are no means of enforcing these regulations, we shall be on our honor to carry them out. As individuals, I believe that the majority of us will conform; and as an organization we should make it as much of a duty as Red Cross. It is the wish of the executive that the clubs make the conservation of food a matter of discussion, and your secretary would be glad to know the decisions arrived at.

Let us redouble our efforts to use every scrap of bread, every bit of dripping and fat thereby releasing more butter and cream, to let our lambs grow into sheep and so increase our meat and wool supply—and in every way we can to increase production and decrease waste and intelligently the consumption of the staple foods.

\$5,400 WOOL SHIPMENT

A tangible evidence of money from sheep raising is shown in the value of the car of wool shipped out last week. It was hardly filled but gave \$5,400 to local farmers Messrs J. Varty, Wiley & Son, Varty Bros., Heri Johnson and P. K. Johnson being the chief contributors. All these men being very enthusiastic and practical sheep raisers.—Chauvin Chronicle.

Don't Hide Them With a Veil! Remove Them With the Othine Prescription

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine—double strength—and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

This Company has been formed under Section 68 of the Companies Ordinance of Alberta with a non-personal liability as a Development and Holding Company to acquire certain dredging and mining rights from the owners of the Canadian Government Gold-Dredging Concession, situated at the mouth of the Stewart River, Yukon Territory; to prospect and develop this concession, and to carry on a mining business generally.

The Capital of the Company is \$500,000.00, divided into 500,000 shares of the par value of (\$1.00) one dollar each, which shares are to be issued as non-assessable and not subject to any further assessment.

The owners of the concession (The Yukon-Alaska Gold-Mining Syndicate) having made an exhaustive investigation of the gold-producing history of the Stewart River, its tributaries and formations, and recognizing its great importance as a field for development, have agreed to sell the rights covering the first five miles of this valuable concession to the Canadian Stewart Gold Mines (Ltd.) on condition that \$50,000.00 be expended in charting the bars and gravels by means of Keystone drills, determining the average values over the entire ground, the depth to bedrock, the values on bedrock, and the class of dredge required to be installed so that actual mining operations may be initiated at as early a date in 1918 as possible.

An agreement has been entered into between the Vendors and the Company and a properly executed transfer of title to the first five miles of the concession has been made by the Trustees of the Syndicate, and with the agreement has been deposited with the Royal Trust Company, Edmonton, Alta., to be held subject to the completion of the agreement.

The property to be acquired is located on the same formation as exists in the famous Klondike River bed, which has been proven the richest gold bearing area in the world. It is estimated that the values on bedrock of the Stewart River, if proven by drilling to be of the same average value as on the Klondike, will be in excess of

PROOF of the existence of gold in the Stewart River is contained in reports issued by the Canadian Government (Geological Department, Mines Branch), extracts from which are here given:

"The Stewart River bars were found to be auriferous as early as 1885." "Steamboat Bar, the richest one discovered on the river, was reported to have yielded for some time at the rate of \$140.00 per day per man as rocked with a rocker." "Everywhere the gravels contain scattered colors."

"The rocks exposed being dominantly schists, gneisses and limestone of possibly pre-Cambrian age, similar to those so extensively developed in the Klondike and other prominent placer mining camps in Yukon and Alaska. The locality lies outside the Glaciated zone, which is greatly in its favor as a placer district, since, whatever gold has been concentrated in the stream gravels remains practically undisturbed."

T. D. MacFarlane, former Recorder and Mining Inspector for the Government of Canada, Yukon Territory, says: "The Stewart River has better indications of values than those shown in the Klondike before it was drilled."

Adventures of Uncle Wiggily

Uncle Wiggily and Beckie's
Feather Box

Copyright, 1917, by McClure Newspaper Syndicate.

"Oh, dear! I don't see why I can't have one!" exclaimed Beckie. "I want a feather box, as she was talking about Uncle Wiggily's hollow stump bungalow in the woods one day. I want one very awful much!"

"Ho! Ho! What is it you want?" asked the bumpy rabbit gentleman from his porch where he was sitting and eating the last of a carrot. "I want a feather box, as she was talking about Uncle Wiggily's hollow stump bungalow in the woods one day. I want one very awful much!"

ALADDIN CLUB

Edited by Uncle Tom for
Boys and Girls

To Uncle Tom,
Care of the Bulletin,
Edmonton.

Please enroll me as a member of
your Aladdin Club, and also send
me an edge free of charge.

I am years of age. My birth-

day is on the day of

My father's full name is

I promise to write at least one
letter a month to the club, to wear
the badge at all times, and to do all
I can to promote the objects of the
club.

Cut this out, fill in the information
and sign your name, and forward to
the Bulletin Office, Edmonton, as
soon as possible.

it in your paws. Don't worry, butter
or any grease will peel it off after-

ward.

So Uncle Wiggily took some of the
sticky gum from the pine tree. Then

the tree told him to roll the gum
around a long piece of ribbon-grass.

"Now roll the sticky piece of ribbon-grass
in a lot of my loose needles,"

said the pine tree. "They look exactly
like the feathers in a box."

So Uncle Wiggily did that, and soon
the sticky ribbon-grass was all covered

with long pine needles.

"There's your feather box for
Beckie!" said the pine tree, and surely

enough, it was, as stylish as could be
wished. The pine needles stuck to the

gum-covered ribbon-grass, and when
it was tied on the little bear's neck

she walked the board walk very happy
like indeed.

So everything came out all right,
and if the hammock doesn't go to sleep

in the porch swing and forget to wake
up in time for the moving pictures I'll

tell you next about Uncle Wiggily and
the sunflower.

Holden, July 25.

And I also read the club letters. I like
the club letters fine. Uncle Wiggily has
got some adventures all right.

Calmar, July 25.

Harold Melin.

Dear Uncle Tom—I received my badge
a long time ago but have been so busy
that I have not had time to write. I must
thank you very much for it. It is very
pretty but the first time I was to put it
on I broke it, so will you please send me
another. I have a little cat whose
name is Florio. She is very cute. We
have four small calves and about a hundred
small chickens and forty small ducks.
They are very cute. I am having my
holidays as most of the members are. My
letter is getting long, so I will close.

Heatha Johnson.

Holden, July 25.

Going to a Picnic

Dear Uncle Tom—I received my badge
from you on Saturday. I think it is very
nice and I thank you very much for it.
Our school teacher is going to take us out
to a picnic next week and I was at
Cooking Lake and another picnic this week.
We have a nice flower garden. In our other
four houses and a cat. My brother is going
to join your Aladdin club.

At Two Pines

Dear Uncle Tom—I am going to write
to you about our summer
holidays now, and we are having lots of
fun. My cousin is staying with us. I
was at a picnic last week and I was at
Cooking Lake and another picnic this week.
We are having hot weather now, got lots of
strawberries to eat, but they are so hard
to pick. I will be glad when the rasp-
berries get ripe. There are lots and lots
of flowers of many kinds.

Ardrsson, July 14.

Ivy Williams.

Tells About Home

Dear Uncle Tom—I'll tell you a little
about our home. I'm going to tell you
about the geese. The geese took one
mother goose and nine little geese. We
have a nice flower garden. In our other
four houses and a cat. My brother is going
to join your Aladdin club.

Stomach Cramps

COLIC

These are very painful, and their
attacks are often sudden, and some-
times fatal. The principal cause is in
the stomach and bowels, producing
severe twisting, cramping pain, and
often accompanied by vomiting. If
you are troubled in this way, there is
only one remedy to cure you, and that
one is Dr. Fowler's Extract of Wild
Strawberry. It has a record of cures
extending over 25 years, and we have
yet to hear of a case where it has failed
to either relieve or cure.

Beware of imitations and substitutes
sold by unscrupulous dealers for the
sake of greater profits, as these no-
name, non-reputation worthless prepa-
rations may prove dangerous to your
health.

Mrs. H. Miller, 735 Mark St., Port
William, Ont., writes: "Last summer
my husband came home from work
and could hardly straighten up for
cramps. The first thing I gave him
was a dose of Dr. Fowler's Extract of
Wild Strawberry, and I hadn't repeat-
ed it very long until he was all right
again. It is the only remedy I give my
children in the summer for cholera or
cramps in the stomach. I have never
been without it in the house for the
last three years."

In the World of Labor

THE special committee of the Trades
Executive of the Great War Vet-
erans' Association got together for
their first conference this week. The
proceedings were most amicable, and
mutual understanding was arrived
at that the interests of both sides were
identical in securing the amelioration
or improvement of labor conditions,
and that in securing future legislation
towards these ends that the one or-
ganization can prove of substantial as-
sistance to the other. Another point
emphasized is that the returned men
can benefit largely by coming under
the care of established labor organi-
zations when re-entering civil life.

The meeting was the first of what
will be a series, as the joint confer-
ence will have no time in outlining a
platform which will embody the in-
terests and wishes of both. The ob-
ject is to send this to other Trades
and Labor Councils, asking that they
should take similar action in conjunc-
tion with the local branches of the
Great War Veterans' Association, with
the ultimate idea of the whole con-
ference of opinion being forwarded to
the Trades and Labor Congress, that
it should be held. Then the main
request will be that Congress should
unite with the Great War Veterans'
Association in joint action.

At a special meeting R. J. Talton
was elected president and John
Monahan vice-president of the
Calgary Trades and Labor Council.
President Talton also was elected
delegate to the annual convention in
Ottawa of the Dominion Trades and
Labor Congress, which will be held in
September. Joseph Harris was elected
the alternate. Then the main
request will be that Congress should
unite with the Great War Veterans'
Association in joint action.

CALGARY Typographical Union has
negotiated a new scale of wages
with the three local daily news-
papers. The old rate was \$22 for floor
men and \$25 for operators for day
work, and \$25 for floor men and \$27
for operators for night work. The
new arrangement, which becomes ef-
fective at once, provides a flat rate for
floor men and operators of \$25 for
day and \$27 for night work. The in-
crease is another acknowledgment of
the high cost of living.

IN the sixth annual report issued by
the Department of Labor, con-
tinuing statistics for 1916, figures
are given showing the extent to which
the trade unionists of the Dominion
have contributed to the Canadian ex-
peditious forces since the outbreak
of the war in August, 1914. Enlist-
ment of one or more members has
been reported by 1,384 local branch
unions, the recruits numbering 21,
599, and reservists 598, a total of 22,
197 trade unionists in the ranks. The
following statement shows the totals
for each province: Nova Scotia 1,700
recruits, 17 reservists; New Brunswick
917 recruits, 86 reservists; Prince Ed-
ward Island, 66 recruits, one reser-
vist; Quebec 1,881 recruits, 66 reser-
vists; Ontario 2,176 recruits, 215 reser-
vists; Manitoba, 2,278 recruits, 87
reservists; Saskatchewan, 873 recruits,
21 reservists; Alberta 2,736 recruits,
38 reservists; British Columbia 2,739
recruits, 287 reservists; Yukon (ex-
cludes locally not specified) 204;

were discussed. One of the delegates
from the Order of Sons predicted seri-
ous trouble if the one-man car sys-
tem were adopted on that line.

SERIOUS FIGHTING RENEWED IN CHINA

Both Sides Renew Quarrel For
Mastery of Sze Chuen
Province

Shanghai, July 21.—A correspondent
of the North China Daily News re-
ports that serious fighting has broken
out again at Cheng Tu, capital of the
provinces of Sze Chuen, where Kwel-
chow and Yun-Nan troops have re-
sumed their quarrel for mastery of the
province. The city is in flames and the
people are fleeing in panic.
